Lagna Chart(Birth Chart)

Ascendant or Lagna, is the degree of the sign which is rising on the eastern horizon at the time of birth. The Lagna is the most influential and important sign within the natal or lagna chart. This sign will be considered the first house of the horoscope, and the enumeration of the other houses follows in sequence through the rest of the signs of the zodiac. In this way, the Lagna does not only delineate the rising sign, but also all the other houses in the chart.

Kalsarpa Dosh

Rahu and Ketu are two nodes of Moon and they are regarded as full-fledged planets in Vedic Astrology. They are considered as most dreaded planets due to their heavy karmic effects. If all the 7 planets are situated between Rahu and Ketu then Kaal Sarp Yog is formed.

Most of the the Kalasarpa dosha effects are negative, while few can be positive too. Rahu or Ketu gives sudden positive changes which are huge and can happen overnight or within a span of few

days.

What is Sadhesati dosha?

Sadhe Sati refers to the seven-and-a-half year period in which Saturn moves through three signs, the moon sign, one before the moon and the one after it. Sadhe Sati starts when Saturn (Shani) enters the 12th sign from the birth Moon sign and ends when Saturn leaves 2nd sign from the birth Moon sign. Since Saturn approximately takes around two and half years to transit a sign which is called Shani's dhaiya it takes around seven and half year to transit three signs and that is why it is known as Sadhe Sati. Generally Sade-Sati comes thrice in a

horoscope in the life time - first in childhood, second in youth & third in old-age. First Sade-Sati has effect on education & parents. Second Sade-Sati has effect on profession, finance & family. The last one affects health more than anything else.

People with Scorpio rising tend to be secretive, deep, withdrawn, mysterious, regenerate or degenerate, reserved, hard to understand, courageous, willful, persistent, stubborn in thought, creative, self-reliant, self-controlled (except perhaps with the passions), and silent.

According to the spiritual astrologer Isabel Hickey, no unevolved soul is born with Scorpio rising. This is a powerhouse rising sign.

“ It represents the battleground where the higher and lower selves must come to mortal combat. They must be aligned and the lower self eventually must die and give way to and obey the higher self, the God within.

Physical, emotional, mental and spiritual levels are all involved. You appear calm on the surface, but you can be extremely emotional inside. 'Still waters run deep', as they say.

You tend to be the silent type, always wanting to know others' motivations, but never disclosing your own. You love to play the detective or the ferret.

You have to know everything, all the how's and why's. You have great determination and strength, enough to overcome any adversary, even yourself.

“ You need to overcome resentment, possessiveness and jealousy. There may be a fascination, preoccupation, interest and/or ability with the occult, death, sex or healing.

You can be a devil or an angel, the eagle or the stinging scorpion. Mars and Pluto rule Scorpio so Mars and Pluto will be important in your chart.

Mars is Neutral in your horoscope

Mars is in your horoscope in Seventh house

You are independent, like to have your own way and you must develop gentleness and diplomacy in order to avoid rubbing people the wrong way. You need to learn how to cooperate with others. You desire an active partner who can help you share in the goings-on of the world. Your partner needs to challenge you, help you initiate projects and perhaps compete with you. You need a sparring partner! Your relationships have much energy and you need to channel that energy into constructive means and not into destructive ones. The competition between you and your partner might better be directed towards the outer world

“ Relationships energize you and you get a great deal of stimulation from them

In all your dealings with others you enjoy the element of challenge and competition. You may goad others just to see how they will react. The chase is important to you, perhaps more important than the end result. Because you

enjoy the action, you may not mind losing battles to a partner who is prepared to carry the fight to you. Your marriage partner is likely to be very ardent, positive, active, capable and courageous, with a will of their own. Perhaps the partner you seek is someone who can play the role of a champion or a crusader. Mars here makes for an association where the passions have full play and a love match with much devotion is possible. The tendency is to marry early, often as a result of love at first sight, although if Mars is badly aspected, you may marry in haste and repent at leisure. There may be strife and friction in marriage as a result of the partner's hasty temper, intemperance, extravagance, brashness, intolerance, over-demanding attitude or violence. In order to get the best results from marriage and partnership, you should try to be as cooperative and easy-going as possible, practicing gentleness and diplomacy rather than allowing any assertive or quarrelsome tendencies to gain the upper hand.

Mars is in your horoscope in Taurus sign

Once you set your mind on a goal, your dedication, determination, and commitment to it are extraordinary. You never give up and find it difficult to change your mind or course in mid-stream. You are loyal to a fault, unless someone betrays your trust, then all heck can break loose. You are patient and usually slow to anger unless someone takes you too far. That is when you charge, just like the bull Taurus stands for. You are reliable and consistent and can handle more of the workload than most around you. You prefer a regular routine, with definite hours and clearly defined responsibilities and tasks. You enjoy building and seeing the results of your hard work.

“ Whatever you have set your sights on, you refuse to give up or let go of it

Things you can put your hands on appeal to you. You need to see practical results, not theory and you are not satisfied with intangibles like just having a good time. At the same time, you have a lazy, comfort-loving side and there is often a good deal of inertia for you to overcome before you get going. Once you get a momentum going, your energy level is strong and steady. Keeping things going is your strength, especially once someone else starts them. Material well-being and security are large factors in determining what you do. Your stamina and persistence is your great strength but it can also work against you; you can get caught in a rut and refuse to seize new opportunities. You also tend to play it safe and to limit yourself in that way.

Change scares you. So does disease and pain. At times you have a decided stubborn streak where no one can reach you. Possessiveness and jealousy may cause problems for you in relationships. Money and possessions are important to you for the feelings of security they bring. Re-evaluate your values. Sharing should be cultivated. Your tongue may be quite unruly at times
